

**NEW!** Vagisil Satin™

**Features:** Vagisil Satin™ is a feminine itch creme. It contains hydrocortisone acetate (1%), for the relief of feminine itch associated with inflammation, minor skin irritation and rashes. It comes in a unique, discrete pump that is easy to use.

**Benefits:**

- Provides fast acting and long lasting relief for 12 hours of relief
- Non-greasy, light formula relieves itch on contact
- Contains powerful odor block protection that keeps odor from happening
- Not only does it soothe, it helps heal the skin
- Easy-to-use pump for women on the go

**When to Use:** For temporary relief of external feminine and anal itching associated with minor skin irritations, inflammation and rashes. The creme can be used externally in conjunction with most oral and internal vaginal anti-fungals and bacterial infection medications for relief of external symptoms.

If symptoms last more than seven days, or clear up and occur again within a few days, consult your physician. If a vaginal infection is suspected, consult a physician before using the product.

**Key Ingredient:** Hydrocortisone acetate (1%), an external analgesic.

**Consumer Information:** Available in 1 oz pump. Suggested retail price is \$6.25. Can be found in the feminine hygiene section at food, drug and mass merchandise stores.

## **NEW!** Maximum Strength Vagisil® Anti-Itch Medicated Wipes Singles

**Features:** Maximum Strength Vagisil® Anti-Itch Medicated Wipes singles have an external analgesic to provide on-the-go relief for women suffering from itching, irritation and odor of the external genital area. As with Vagisil® Anti-Itch Creme, the wipes are enriched with skin-soothing Vitamins E, A and D, as well as an odor-block ingredient that stops odor from happening.

- Benefits:**
- Contains a maximum-strength itch medicine to help relieve burning and itching caused by perspiration, discharge, yeast infections, wearing tight clothing, allergic reactions to soaps and detergents, hormonal fluctuations, atrophic vaginitis, chafing from pads and pantyliners
  - Soft flushable, individually wrapped towelette for use at home or away
  - Wipes away irritating discharge and perspiration, freshens and blocks odor
  - *New larger wipe! Individually wrapped wipes are now 20 percent bigger in size!*

**When to Use:** To relieve itching and irritation in the external genital area, wipe the affected area not more than three or four times a day. If symptoms persist for more than seven days, or if a vaginal infection is suspected, consult a physician.

**Key Ingredients:** Pramoxine hydrochloride (1%), the active ingredient, is an external analgesic. There are also ingredients to help freshen and block odor.

**Consumer Information:** Suggested retail price is \$5.24 for a package of 12 flushable wipes. Can be found in the feminine hygiene section at food, drug, and mass merchandise stores.

## **Vagisi® Screening Kit For Vaginal Infections:**

**Features:** The first and only rapid results vaginal infection screening kit for use at home. The kit measures pH, one of the criteria used by medical professionals in diagnosing vaginal infections.

- Benefits:**
- Easy-To-Use
  - Fast results
  - Clinically Tested
  - Helps a woman decide if she needs to visit a medical professional

**When to use:** The Vagisil® Screening Kit is for women with symptoms of unusual discharge, unpleasant odor, itching or burning. The kit helps a woman decide if her symptoms may be caused by a yeast infection or another type of vaginal infection that will require a visit to a medical professional.

**Consumer Information:** Each kit contains 2 trays that each have a pH swab and an easy to read pH guide. Suggested retail price is \$16.99. Can be found in the feminine hygiene section at food, drug and mass merchandise stores.

## **Original Strength Vagisil® Anti-Itch Creme:**

**Features:** First in its category, Vagisil® Anti-Itch Creme is the original topical anesthetic formulated to provide instant, long-lasting relief of most itching, irritation and burning of the external genital area. The cream is enriched with Vitamins E, A and D, as well as moisturizing aloe. Helps soothe irritated skin and reduces the chance of further irritation. Breakthrough odor-block technology helps keep odor from occurring.

- Benefits:**
- Instant, long-lasting relief for itchy, irritated skin caused by perspiration, discharge, wearing tight clothing, allergic reactions to soaps and detergents, hormonal fluctuations, atrophic vaginitis, chafing from pads and pantyliners
  - Forms a protective film to reduce further irritation
  - Non-staining and greaseless
  - Freshens and blocks odor

**When to Use:** To relieve itching and irritation in the external genital area, apply not more than three to four times a day. As with any medication, follow the manufacturer's directions. If symptoms persist for more than seven days, or if a vaginal infection is suspected, consult a physician.

**Key Ingredients:** Benzocaine (5%), a fast-acting external analgesic and resorcinol (2%), an external analgesic, stop itching quickly. The added moisturizers help soothe and alleviate further irritation.

**Consumer Information:** Suggested retail price is \$4.69 for the 1-oz. package and \$6.59 for the 2-oz. package. Can be found in the feminine hygiene section at food, drug, mass merchandise, and discount stores.

## **Vagisil® Deodorant Powder:**

**Features:** One hundred percent talc-free, Vagisil® Deodorant Powder with cornstarch has odor-block protection that helps prevent odor from happening. This formula also absorbs wetness and helps prevent chafing. Enriched with Vitamins E, A and D, it is safe to use on the external genital area as well as for all over the body. It has a light, fresh scent.

- Benefits:**
- Natural cornstarch powder absorbs moisture and odor from vaginal perspiration and discharge
  - Unique odor-block formula helps keep odor from happening
  - Provides a dry, fresh, clean feeling
  - Helps protect skin from chafing and irritation
  - New larger easy to hold bottle

**When to Use:** Apply after bath or shower to external genital area or sprinkle on panties, pads or pantyliners for extra protection. Vagisil® Deodorant Powder is ideal as an all-over body powder, particularly under the breasts and on inner thighs. The powder can be used daily or whenever necessary, to prevent feminine odor, absorb wetness, or help prevent chafing.

**Key Ingredients:** Natural, pure pharmaceutical-grade cornstarch, which has been proven safe to use on the genital area to absorb wetness.

**Consumer Information:** Available in a 8-oz. container. Suggested retail price is \$3.49. Can be found in the feminine hygiene section at food, drug, mass merchandise, and discount store.
